# MAGALIA

## Precast Fireplace Mantel

The Magalia is a multi-piece mantel. The lintel and cap are manufactured as separate pieces and are ordered to your desired length. Corbel, leg backing, leg flat stock, plinths and inlays are ordered as individual items and can be cut to adjust for height. The inlay tray can accept various styles of our 6" inlays to match your décor. See 6" Inlay selections on page 123. Hearths and flat stock are separate items and all products are available in paint grade and TraverStone finishes.
