

HEARTHCO INC.

Manufacturers of Precast & Wood Products

Precast Packaging

Every HearthCo precast order is packaged individually with all corresponding items.

HearthCo assures you that your order will be complete and received in factory condition ready to install.

Each item is packaged with foam, strong-backs and strapped to ensure product does not shift during transport.

Each order is covered with visqueen, then shrunk wrapped to protect product until it is ready to install.

Once product is received slice open wrapping to allow moisture to escape.
